About Orpic

The Orpic journey began in 1982 with the commissioning of Oman’s first refinery at Mina Al Fahal in Muscat, inaugurated by His Majesty Sultan Qaboos bin Said. Today, Orpic is one of Oman’s largest and most rapidly growing businesses in the Middle East oil industry. With refineries in Suwar and Muscat, as well as Aromatics and Polypropylene production plants in Suwar, Orpic has cemented its position among the industry’s most forward-thinking companies to enter the highly competitive global downstream business arena.

“From a traditional refinery that exclusively met Oman’s local needs for fuel, Orpic has, in a very short time, transformed into a dynamic and versatile petrochemicals producer that serves a variety of local and global customers. As one of the most integrated oil refining and petrochemical facilities in the region, Orpic is on track to expand our world class products and services to a larger customer base in the coming years.”

Ahmed Saleh Al Jahdhami
Chief Executive Officer, Orpic
Assets

Orpic currently operates four plants, split between two locations - Muscat and Suhar. The two locations are connected by the 290km Muscat-Suhar Product Pipeline, a vital link that delivers feedstock from Mina Al Fahal Refinery to the Suhar plants and vice versa.

Refrineries

Mina Al Fahal Refinery, Muscat
- Opened 1982
- 116,000 barrels per day

Suhar Refinery, Suhar
- Opened 2006
- 204,000 tonnes per day

Aromatics

- Opened 2006
- 818,000 metric tonnes paraxylene per year
- 198,000 metric tonnes benzene per year

Polypropylene Plant
- Opened 2010
- 340,000 metric tonnes per year

Growth Projects

LPIC
- Expected year of opening 2020
- 1.2 million tonnes per year

MSPP (Muscat Suhar Product Pipeline & Al Jefnain Terminal)
- Opened 2017
- Capacity to deliver over 50% fuel in Oman

Products

Fuels

- Jet Fuel
  - 11,500 barrels per day

- Diesel
  - 51,000 barrels per day

Aromatics

- Paraxylene
  - 818,000 metric tonnes per year

- Benzene
  - 198,000 metric tonnes per year

Polymers

- Polypropylene
  - 340,000 metric tonnes per year
Journey

The Orpic journey began in 1982 with the commissioning of Oman’s first refinery at Mina Al Fahal in Muscat, inaugurated by His Majesty Sultan Qaboos bin Said. The first major milestone was reached when Orpic brand was formed with the integration of three companies: Oman Refineries and Petrochemicals Company LLC (ORPC), Aromatics Oman LLC (AOL) and Oman Polypropylene (OPP).
